Air Force Worldwide Contracts

Shaping the Future

Today through Tomorrow

AMEC is one of the largest engineering and construction firms in the world and is consistently ranked annually by ENR magazine as one of the leading international design and construction firms worldwide.

- AMEC operates in over 30 countries in over 270 locations from the Australian outback to the Arctic
- AMEC employs over 23,000 people worldwide
- Successfully completed projects in every time zone and on every continent
- AMEC is a full-service firm offering the highest quality services available to our Air Force clients
- Since 2003, AMEC has been included in the Dow Jones Sustainability Index as either the 1st or 2nd ranked company in its sector

The AMEC Advantage

- A partnership approach with our Federal clients and government agencies
- Commitment to innovative problem-solving and cutting-edge technology
- Proven Air Force Contractor worldwide
- Tested ability to execute multi-million dollar programs
- Experience at over 2,000 Federal facilities
- Local access to our skills worldwide

Contracts

AFCEE 4PAE08: Worldwide Planning, Program, and Design Contract (Prime)

Contract No: FA8903-08-D-8766
Performance Period: Feb 2008 - Feb 2013
Program Ceiling: \$3 Billion

Title I Services

- Traditional Design
- Environmental Design
- Design of Environmental Restoration
- Compliance
- Pollution Prevention
- Construction

Title II Services

- Review of Construction Submittals- Design Update - Prefinal Inspection and Final Inspections
- Evaluations of Ongoing Audits
- Field Oversight
- Treatment, Storage and Disposal Facility Audits

Environmental A/E Services

- Air Quality
- Environmental Compliance
- Assessment & Management Efforts (ESOH CAMP)
- Natural & Cultural Resources
- Hazardous Material & Waste Management
- Pollution Prevention & Compliance
- Information Management

NEPA

- Environmental Baseline Studies
- Environmental Assessments
- Environmental Impact Statements

Heavy Engineering Repair and Construction (HERC) (Prime)

Contract No: FA8903-06-D-8507
Performance Period: Apr 2006 - Apr 2011
Program Ceiling: \$6 Billion with the potential to increase to \$15 Billion

Services

- Heavy Construction
- Renovation and Upgrade
- Demolition
- Repair
- Emergency Response
- Environmental Incidental to Construction

Methods of Execution

- Turnkey
- Design/Build
- Design/Bid/Build

Worldwide Environmental Restoration and Construction (WERC) (Prime)

Contract No: FA8903-04-D-8669
Performance Period: Nov 2003 - Nov 2008
Program Ceiling: \$4 Billion with potential to increase to \$10 Billion

Contract Services

- Environmental
- Maintenance & Repair
- Construction
- Demolition
- Emergency Response
- Full Systems
- Remedial Services Optimizations
- Ordnances and Range Remediation Title II
- Pavement Maintenance/Repair

Speciality Services

- Backup Generators
- Main Power Electrical Systems
- Airfield Repair
- Runway Replacement
- Munitions Storage System Upgrades
- Heating, Ventilation, and Air Conditioning Upgrades

Sustainment, Restoration and Modernization Acquisition Task Order Contract (SATOC) (Prime)

Contract No: FA3002-08-D-0003
Performance Period: Jul 2008 - Jul 2013 (basic)
Program Ceiling: \$4 Billion (shared)

Services

- Facilities
 - Anti-Terrorism/Force Protection
 - Life Safety & Building Codes
 - Cost Engineering
 - Energy
 - Roof Systems
 - Seismic and Wind
- Civil
 - Airfield Lighting, Marking, Geometry
 - Pavements
 - Structural/Friction Evaluations
 - Water/Wastewater/Solid Waste
 - Grounds Maintenance
- Mechanical
 - HVAC Systems
 - Fire Suppression Systems
 - POL Systems
 - Natural Gas Systems
 - Boiler Systems
 - Plumbing Systems
 - Industrial Waste Treatment
- Electrical
 - Cathodic Protection
 - Interior/Exterior Distribution
 - Electrical Generators
 - Lightning Protection Systems
