

Department of Navy Services

Shaping the Future

Today through Tomorrow

AMEC is a world leader in technical services and program management, employing over 23,000 people in some 30 countries across the world.

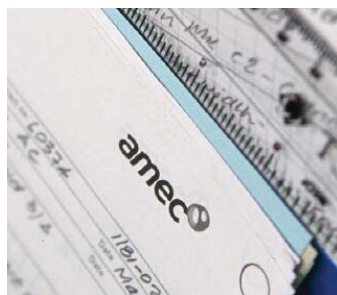

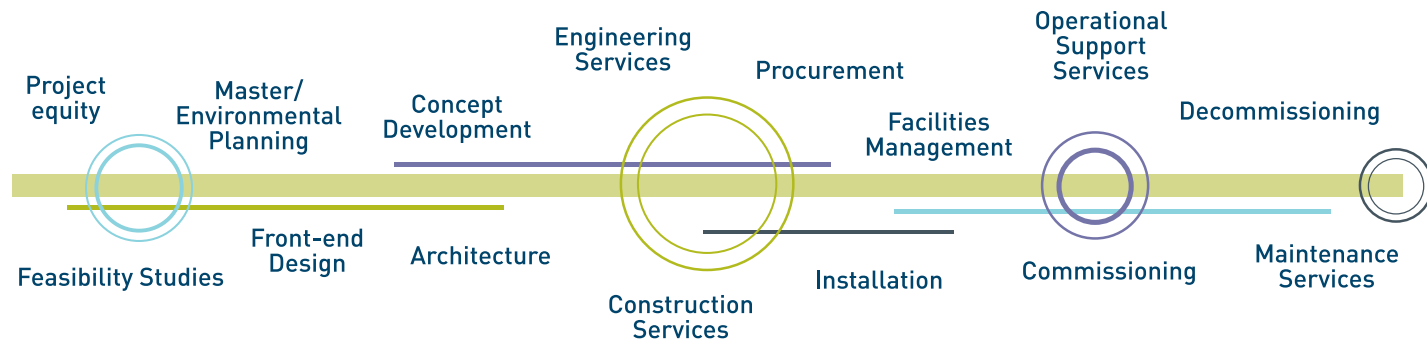

We have a network of offices throughout the United States, United Kingdom, Eastern Europe and Canada as well as regional offices and projects worldwide.

AMEC has been successfully delivering complex projects for the defense industry for more than 30 years. We offer our clients a unique partnering approach, based on understanding their needs and goals as well as offering the flexibility to work with their changing requirements. AMEC's global presence allows us to respond rapidly to our clients global requirements.

AMEC is extremely proud of our corporate small business program, which has been in place for over 15 years, providing subcontracting opportunities for small and small disadvantaged business concerns. AMEC strongly advocates maximizing the use of small business and continually works to build a diverse group of small business partners to enhance our capabilities and better serve our customers. The diverse capabilities of our small business partners truly improve AMEC's ability to provide the best value to our clients.

Since 2003, AMEC has been included in the Dow Jones Sustainability Index as either the 1st or 2nd ranked company in its sector.

Engineering News Record (ENR) magazine ranked AMEC as the world's 5th leading international design firm in 2009
