Earth and Environmental seminar

AMEC is today holding a capital markets seminar in London focused on its Earth and Environmental division (E&E).

This division, which reported 2008 revenue growth of 39 per cent and 58 per cent growth in EBITA, differentiates AMEC from its peers in the engineering services sector.

Roger Jinks, President of E&E, together with colleagues from the business, will describe the fundamentals of AMEC's activities in E&E and discuss the growth drivers of this area of the group's activities.

Key points to be made at the presentation are:

- Strong record of revenue growth **>20% CAGR 2000-2008**
- Attractive margins **Future target 10%+**
- Diversified portfolio **Resilient earnings**
- >4,000 experts **Highly transferable**
- Large and fragmented sector **Further acquisitions expected**

No further material new information will be disclosed in the presentations.

A live webcast of the event, starting at 11.30am, and presentation slides will be available on amec.com

There will be no statement on current trading at the seminar.
